### Reviews

Definitely one of the better publication I have got possibly read. It really is written in basic phrases and not difficult to understand. You won't sense monotony at anytime of your respective time (that's what catalogs are for about if you request me).

Vintage Publishing, United Kingdom, 2007. Paperback. Book Condition: New. 194 x 130 mm. Language: English . Brand New Book. In 1863, the French painter Ernest Meissonier was one of the most famous artists in the world and the darling of the Salon - that all important public art exhibition held biannually in Paris. Manet, on the other hand, was struggling in obscurity. Beginning with the year that Manet exhibited his ground-breaking *Dejeuner Sur L Herbe* and ending in 1874 with the first Impressionist exhibition, Ross King plunges into Parisian life during a ten-year period full of social and political ferment with his usual narrative brilliance. These were the years in which Napoleon III's autocratic and pleasure-seeking Second Empire fell from its heights into the ignominy of the Franco-Prussian war and the ensuing Paris Commune of 1871. But it was also a period in which a group of artists, with Manet in the vanguard began to challenge the establishment by turning to the landscapes and ordinary people they saw around them. The struggle between Meissonier and Manet to get their paintings exhibited in pride of place at the Salon was not just about art, it was about how to see the world.
