Guidance Notes for Recommended Weekly Operational Duties Inspect chlorine and fluoride testing equipment. Testing equipment is essential for a comprehensive monitoring program and must be kept in proper working order. Make sure you are using the correct chemical reagents for each type of application. Reagents should be safely stored and clearly marked with the name and date of preparation. Manufacturer-prepared reagents should be discarded when the expiration date is reached. A chemical equipment weekly testing log card is provided. Clean pump house and grounds. Keeping your pump house and grounds clean will help with overall maintenance and operation of your system. The useful life of bearings can be reduced if dirt gets into lubricants. Also, dirt and moisture will form an insulating coating on motor windings and can cause motors to burn out. In addition to cleaning, screen all drain and vent openings in the building to prevent entry by animals and insects, and in the...

Reviews

It is an awesome publication which i actually have ever read through. it had been writtern really properly and valuable. I found out this book from my i and dad recommended this pdf to discover.

-- Doyle Schmeler

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
